## So....So Smart!

smart product November 6th, 2009

The editors at Lunchbox Magazine love So Smart's **Baby's First Word Stories**, winner of the NAPPA Gold and Parents' Choice Awards. Created by Alexandra Tornek and her husband, Scott, this wonderful collection of DVD's helps toddlers develop early language skills. In each title, a whimsical family of animals introduce simple words about your home and the outdoors, and then build sentences and stories around these words. Our toddler-age testers loved repeating the words and were entranced by the gentle storylines. Go to their website and check out other So Smart products! [www.sosmart.com](http://www.sosmart.com)
